

# INFORMATION SECURITY POLICY

ISON BPO is committed to attaining high levels of information confidentiality, integrity and availability, whereby the needs and expectations of clients, interested parties and the company are identified and managed through a systematic process of risk assessment and mitigation. We maintain a proactive approach to completely satisfy the needs and expectations of all the stakeholders and also meet the legal compliance requirements.

To attain this, ISON BPO has implemented an Information Security Management System (ISMS) based on ISO 27001:2013 and is committed to its continual improvement. As part of the ISMS framework, measureable information security objectives shall be established and monitored at various levels throughout the Company.

A handwritten signature in black ink that reads "Pravin Kumar".
